Sub:- Investigation on the failed steel structure of the calcium carbonate silo in the
Neutralization Plant-reg.,

Sir,

M/s Travancore Titanium Products Limited (TTPL), owned by the Government of Kerala, is the largest producer of Anatase grade TiO₂ pigment in India through sulphate route process. M/s.Travancore Titanium Products Limited had set up a new Neutralization Plant with water recycling facilities to meet the norms stipulated by statutory authorities.

The steel structure of the lime stone storage silo in the Neutralization Plant collapsed on 21-07-2017 causing the silo to tilt and fall down. It is now decided to conduct a detailed enquiry in to the structural failure of the silo with financial assessment by engaging reputed engineering institutions for this work.

SCOPE OF WORK

1. Detailed investigation on the damaged silo and its structure as to the reasons of failure.
2. A cost assessment on replacing the damaged silo and erecting a new one with steel structure

We would like to have your lowest quotation on the above work, by 3.00 pm on 30-11-2017.

You are also requested to get acquainted with the nature and quantum of the work before quoting. Details regarding this can be had from our Project Department from 9 AM to 4 PM on all working days Monday to Friday and on all working Saturdays from 9 am to 12.30 pm before the last date.

For any technical clarification on the bid, please contact Asst. General Manager (Project & Mktg.)
Ph. No.9072865023.
